### **Sky Data Vault's DRaaS Portfolio**

SDV provides protection and recovery services to organization throughout the US that are looking to secure their most important files, data, databases, software, and entire operating systems. Threats to an organizations ability to function are no longer limited to environmental issues, Fire, Flood, and Long Term Power Outages. Malware, Hardware Failure, and Human Error continue to present issues to organizations on a day to day basis.

If your organization has not evaluated how you are protected from these threats, now is the time. SDV will provide guidance and recommendations based on your organizations requirements and tailor a solution to meet your needs and budget. As a member of the NOVA Chamber, SDV will also provide a 10% discount on any services purchased.

**Direct to Cloud Back Up • Hybrid DRaaS • Direct to Cloud DRaaS**
